AMENDMENTS

IN THE DETAILED DESCRIPTION

Please replace the paragraph beginning on page 8, line 29 with the following amended paragraph:

C1

--Consistent with the ASP architecture of system 10, interactions between client system 13 and system 10 will typically be by means of Internet access, such as by a ~~web portal~~web server 29 (see FIGURE 2). Authorized client personnel will be able to create and modify profiles that will be used to search designated web sites and other selected sources for relevant prospects.--

Please replace the paragraph beginning on page 21, line 17 with the following amended paragraph:

C2

--System 10 is based on a client/server architecture. The server 29 of system 10 can reside on Windows NT/2000 Server, Sun Solaris (Unix), and AIX (Unix) architectures. The client may be any web browser that supports Java 1.1 (or higher) plug-in, such as Microsoft IE 4.0 (or higher), or Netscape Communicator 4.0 (or higher). These web browsers run on most major platforms, such as Windows95/98/NT/2000, Unix (Sun Solaris, AIX, Linux, etc), or OS/2 and MacOS.--
